4000 Series

The SMART 4000 series is SMART's line of cost-effective Interactive Flat Panel displays designed for education.

Each panel is UL Certified and put through Accelerated Life Testing (ALT) to ensure that the displays are durable, dependable, and provides 50,000 hours of stunning content quality.

By combining a premium touch experience with the power of the world's most popular educational software in SMART Learning Suite, the 4000 series provides educators with software that promotes classroom collaboration.

Brilliant HD (65" and 70") and 4K (75" and 84") Resolution

Durable, commercial-grade HD and UHD LED panels display brilliantly detailed images in 1080p and 4K resolution.

Simultaneous Touch Points

With 8 simultaneous touch points (10 touch points for the 75" and the 84") multiple students can simultaneously collaborate at the board using gestures such as zoom, rotate, and flip.

SMART Ink Technology

Writing is natural and looks better with SMART ink. Whether using a pen or finger, each stroke is a work of art.

Silktouch Technology

The most accurate, natural, and responsive touch experience from corner to corner. Fingers glide effortlessly over the surface, providing hours of error-free use in perfect comfort.

1-year complimentary subscription to SMART Learning Suite

All SMART Boards come with a 1-year subscription to SMART Learning Suite's interactive lessons, game based activities, formative assessment, online co-creation and more (SMART Notebook, SMART lab, SMART amp, and SMART response)

Anti-glare

Keeps students involved no matter where they're seated.
