SMART® Learning Suite

Create and deliver **hands-on**, **collaborative** learning experiences with the SMART Learning Suite.

SMART Learning Suite

A combination of lesson delivery, assessment, student collaboration, and game-based learning software, the SMART Learning Suite supports engaging and seamless instruction.

SMART Notebook

The world's premiere education software, SMART Notebook facilitates interactive learning experiences while providing the flexibility to respond to the needs of learners in real-time.

SMART lab

The greatest gift we can give teachers is time. And for students, it's more fun and engaging learning activities. SMART lab does both by letting teachers quickly create game-based learning activities.

SMART amp

A web-based learning platform, accessible through G Suite (formerly Google Apps for Education), that enables the co-creation of content and fosters student collaboration.
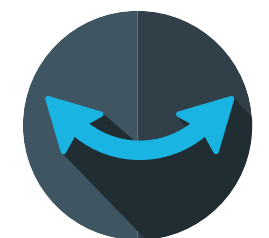

SMART response

A formative assessment software for use on student devices. Create a question set to complement your lesson in under 5 minutes.

Key Features:

Software for any environment
Student devices, interactive whiteboards, interactive displays, Chromebooks, BYOD plans... it's all the same to SMART Learning Suite. The software is designed to fit any learning environment.

The flexibility you need to succeed
Front of the room instruction, student-led learning, project-based learning and flipped classroom initiatives are all enhanced by SMART Learning Suite. Any grade level, any subject.

Easy to use, easy to adopt.
Educators can easily and quickly create dynamic, interactive, fun, and engaging content. In less than five minutes, lessons that will wow students are ready. Plus, access to ongoing support is there every step of the way.

Ready for the future
As a leading education technology company, SMART works closely with educators and thought-leaders in the field to ensure each new release addresses the needs of educators, for today and the future.
